

Orbit® support pack for Windows®

Solartron Metrology provides software support for Microsoft Windows. This software is supplied with the Orbit Network Card, the USB Interface Module and the RS232 Interface Module.

The Orbit Windows Support Pack software includes a COM Object Library for COM applications and Dynamic Link Libraries (DLLs) for lower level programming. Support is also provided for all major programming languages, such as VBA, VB, C++, Borland C Builder and Delphi. Example programs for these languages are available upon request.

Download the latest drivers from www.solartronmetrology.com

Orbit® support pack for Excel®

The Orbit Excel Support Pack enables the user to take readings from the Orbit Network and place values directly into cells of a Microsoft Excel spreadsheet.

Following installation of the Excel support pack, a toolbar becomes available to the user and enables commands such as "Take Readings", "Zero Readings", "Close Link", etc.,. The Orbit Excel Support Pack disc contains examples to help you get started, each designed to show different aspects of the software. Download the latest drivers from www.solartronmetrology.com

Orbit® examples for LabVIEW®

Solartron Metrology provides program examples to enable users to develop applications under the National Instruments LabVIEW environment. Examples are also provided to allow quick test application tests, such as taking measurement readings from Digital Probes or Linear Encoders into LabVIEW.

Compatible with Windows XP, Vista, Windows 7 32 bit. Check with your local sales office for 64 bit compatibility
